

## US/PUBH 390 - Sustainability Internship - Spring 2018

Seminar T/TH, 12:30 – 1:45 p.m., BSB 219 + intern placement

### Course Overview:

Do you want to make an impact on sustainability at UIC? US 390 provides an intellectual framework for students to apply classroom learning to hands-on, project-based internships that advance the overall mission of greater social, economic, and environmental sustainability in the campus community. In addition to receiving mentoring from experienced professionals, interns attend weekly seminars or field outings that cover a range of educational and skill-building topics—all for college credit. Students will present on their internship in a final poster event.

**Instructor:** Cindy Klein-Banai, Ph.D., Associate Chancellor for Sustainability

### Select Internship Positions:

Staffing Zero Waste Events  
Bike Education and Outreach  
Tree Campus USA

Gardening for a Changing Climate  
UIC Energy Initiative  
Paper Reduction on Campus

Recycling Industry Research  
Campus Building Standards  
Energy Resource Center

### Additional Information:

Open to sophomores, juniors, and seniors who have received a grade of C or better in US 130/PHYS 116 or permission from the instructor. Candidates will be placed in internships with UIC departments, administrative units, and some external organizations for approximately eight (8) hours per week. Decisions about student placement will be made during the first week of class. For more information, contact Sarah Koning at [skonin2@uic.edu](mailto:skonin2@uic.edu) or visit <http://go.uic.edu/sip>.
