A decade of experience

We are here for the long run.

150+ partners helped us expand EV charging business across the world

EVSE* market leader
Largest installed base worldwide

70 countries

120+ charging points

2,500+ fast charging stations

* (Electric Vehicle Supply Equipment)

Multiple offices across Europe and North America

- North America (Chicago)
- HQ & NL (Amsterdam, Rotterdam)
- BeLux (Antwerp)
- France (Paris, Bordeaux)
- DACH (Munich)
- Nordics (Copenhagen)
- Norway (Oslo)
- Iberica (Madrid)
- UK & Ireland (London)

2 tech labs for R&D and innovation

Manufacturing plants in France, Netherlands and USA

Installation and maintenance in 70 countries

Financially backed by ENGIE: $70B+ USD/YR revenue
Libertyville

• New North American headquarters
• Production facility
• Research and development lab
## Multi-segmented hardware solutions

Multi-segmented hardware solutions

- **EVBox Elvi** 7.2kW
- **EVBox BusinessLine** 7.4kW
- **EVBox Iqon** 7.2kW
- **EVBox Troniq** 100kW
- **EVBox Ultroniq** 175kW – 350kW
Smart scalable charging solutions

Schiphol Airport
160+ charging points

Pacific Gas and Electric Company
1,600 + charging points

City of Amsterdam
2,000+ charging points
Smart Charging- Port of Zeebrugge

- Destination for all incoming Tesla Model-3s headed for distribution in Europe
- 300 EVBox charging points installed in a 43,000 square feet parking lot allowing cars to be charged up to 80% before being shipped
- The infrastructure is built upon the EVBox Smart Charging technology
Illinois Transportation Electrification

• EV mandate from the top
  • Tax credits
  • Incentives
  • ZEV mandate

• Charging infrastructure: private, utility, government
  • Rebates and incentives
  • Building codes
  • Understanding of difficult sectors- multi-units, medium-heavy duty, disadvantaged communities
